

THEO STEVANNO PASKAH

BINUS UNIVERSITY

OBJECTIVE

Information Systems student interested in software development, UI/UX and system analysis while developing advanced problem-solving skills in a learning environment to create innovative digital solutions.

SKILLS

- Technical & Analysis: Quality Assurance & System Testing, Database Management (SQL), HTML/CSS
- Tools: Figma, VS Code, Visual Studio, DBeaver, Tableau, Excel, Git/GitHub
- Soft Skills: Ability to bridge technical system logic with UI/UX design, Adaptive communication skills, Problem-Solving

EXPERIENCE

ASSOCIATE SYSTEM ANALYST • BINUS IT DIVISION • 02/03/2026 – 28/03/2027

- Conducted comprehensive system testing and UAT across 24 modules, identifying and resolving over 177 bugs before production release to ensure high reliability.
- Redesigned 3 core module web interfaces based on user feedback and system requirements, improving visual consistency across modules.

ENGLISH TEACHER ASSISTANT • TABITHA ENGLISH COURSE • 10/05/2024 – 19/07/2024

- Provided 1-on-1 mentoring and feedback, helping students with reading and grammar exercises to reinforce their English skills.

EDUCATION

BACHELOR OF INFORMATION SYSTEMS • 2027 (EXPECTED) • BINUS UNIVERSITY

- **Academic Honors:** Maintained a 3.94 cumulative GPA, awarded on the Dean's List and recognized at SIS Appreciation Day for outstanding academic performance.
- **Relevant Coursework:** User Experience Research and Design, Programming for Business, Data and Information Management, Information Systems Analysis and Design, Data Modelling.
- **Competitions:** Preliminary Round in Dig-In Cybersecurity Competition and participated in Techfest UI/UX Competition.

PROJECT ACTIVITIES

GOPAY APP REDESIGN • 2024

- Contributed in a team of 4 to redesign the GoPay app experience using Figma and Notion.

GAME DATA VISUALIZATION • 2025

- Developed an interactive tableau dashboard to visualize game data and present key metrics and trends.
- Cleaned and prepared a game-related dataset in Excel to improve data quality for analysis.

CAR RENTAL DATA ANALYSIS • 2025

- Cleaned and transformed a dataset of 5,850 car rental listings using Microsoft Excel and Power Query, including missing value handling, outlier treatment, and feature engineering.
- Developed an interactive Excel dashboard in a team of 6 using PivotTables, PivotCharts, KPI cards, and slicers to analyze rental pricing, customer demand, and vehicle performance.

PROGRAMMING FOR BUSINESS VINCRAFT PROJECT • 2025

- Developed a community website in a team of 4 using PHP and MySQL.
- Implemented most features including uploading, editing and commenting on posts, along with an admin page.

PROJECT DATA AND INFORMATION MANAGEMENT • 2025

- Designed a relational database schema and developed an Entity-Relationship Diagram (ERD), from conceptual to logical in a team of 5.
- Applied 3NF Normalization and used MySQL to implement data manipulation operations (DDL and DML).

VOLUNTEER EXPERIENCE OR LEADERSHIP

PAUD FUN LEARNING • 2025

- Collaborated with a team of six to facilitate educational activities for preschool children.
- Assisted in delivering interactive learning sessions to support children's early learning and engagement.
